STRAIGHT TALK ON
WHEAT PROBLEMS

The following excerpt is taken from the Market News and refers to an address given in the Manitoba Legislature by W. Sanford Evans, M.L.A.

The world crop during this season was a small one, but with old crop carryovers, the four principal exporting countries, Canada, United States, Argentina and Australia, had available for export within the current crop year something over seven hundred and fifty million bushels (750,000,000). Divided by fifty-two that would give fourteen and a half million bushels per week available that could have been shipped weekly, and yet leave on the first of August next moderate carry-overs into the coming year.

During the present season, up to date, the importing world has taken from all sources only twelve and one-quarter million bushels per week. There were fourteen and a half million bushels available, and a demand for only twelve and a quarter million bushels. At the beginning of the season that was not so noticeable, but as each week had gone on, with less taken than was available, the remaining surplus proportionately has piled up until at the present time there is in these four countries a surplus remaining for the balance of the crop year which will permit of eighteen and one-half million bushels for export, and the importing world is still taking only twelve and a quarter million bushels.

Europe, of course, is the great importing market, taking something like 75 to 80 per cent of all the world exports. A year ago at this time Europe had imported on the average fourteen million bushels a week. This year Europe has been taking only nine and a quarter million bushels a week. After the war all European countries found themselves in a position in which of necessity they must have regard to the payments they were required to make to other countries, the whole position of currency depending on the international balance of trade and exchange. It did not matter so much from that point of view what the necessity they must have regard to the payments they were required to make to other countries, the whole position of currency depending on the international balance of trade and exchange. It did not matter so much from that point of view what the necessity they must have regard to the payments they were required to make to other countries, the whole position of currency depending on the international balance of trade and exchange.

Could not Eat or Sleep
after Husband's Death

Her husband's death left her very run down in health, unable to eat or sleep much. Now she is brighter in spirits and eats and sleeps well. What caused the difference? Let her answer in her own words—
"I think Kruschen Salts are a splendid tonic. After my husband's death in December last I became very run down in health. Had terrible fits of depression and was unable to eat or sleep much. I was also troubled with rheumatism. I decided to take Kruschen Salts and have now taken the little daily dose for nearly two months, during which time my health has greatly improved. The rheumatism has completely left me. I am much brighter in spirits and both eat and sleep well."

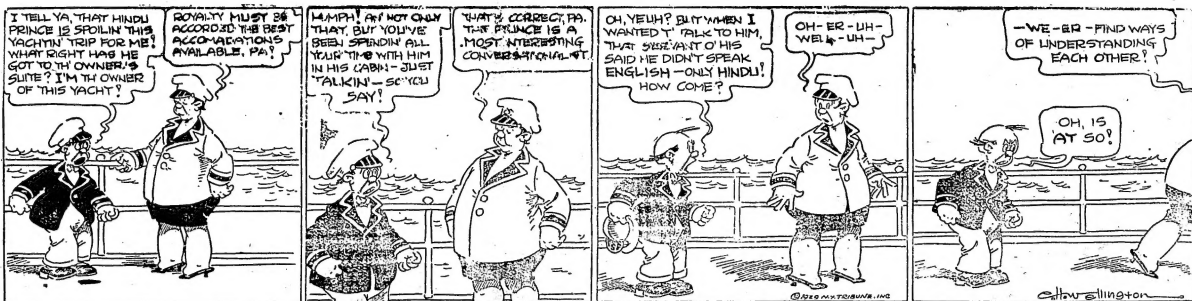

When life begins to "get you down," when you begin to feel the results of modern artificial conditions—errors of diet, worry, overwork, lack of exercise—then you should turn to Kruschen Salts. They possess a wonderful power of giving new life and vitality to the countless millions of cells of which the human body is composed. The way to keep smiling is to take Kruschen Salts every morning—just a pinch in your first morning cup of coffee or tea.

FREE TRIAL OFFER

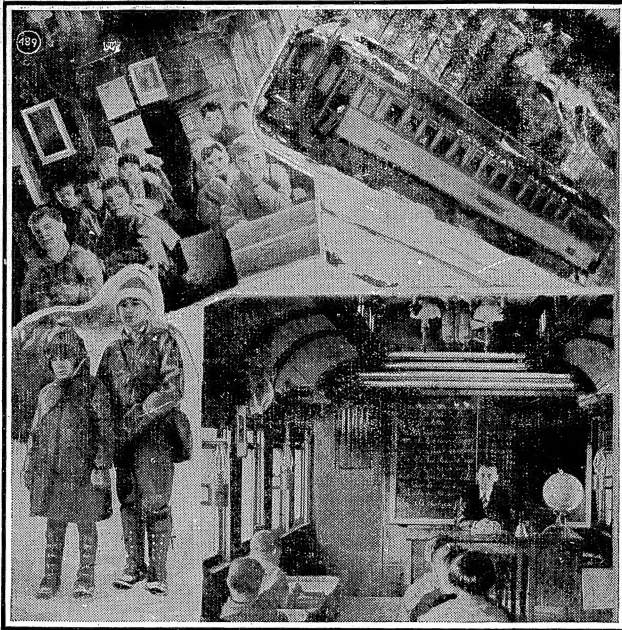

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claim for yourself. Ask your druggist for the new "GIANT" 75c package.

This consists of our regular 75c bottle together with a separate trial bottle—sufficient for about one week. Upon the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorized to return your 75c. Immediately and without question. You have tried Kruschen free, at our expense. What could be fairer? Manufactured by F. G. Kruschen, Ltd., Montreal, Quebec, Canada. (Patent 1756). Importers: McMillan's, Ltd., Toronto.

PA'S SON-IN-LAW

Taking the School to the Scholar

Providing schooling for children in the isolated sections of Northern Ontario long baffled the Ontario Department of Education. The little red school house—if it had been built—would have stood alone with no sign of human habitation for miles around or, if there had been a few houses near, the cost of upkeep would have been too heavy a burden on a few scattered families. So the Canadian Pacific Railway was called in consultation and the result is the travelling school car which has been operated during the winter months with increasing success for the past few years.

Every child loves a train, but when that train comes especially to him and becomes his school—

well, you have to go to fairy tales to get the like of that. So they come enthusiastically from miles around, French-Canadians, Rumanian, Indian, Italian, English-Canadian—all races and ages from five to fifteen years of age. They come on snowshoes, skis, by dog team, from near and far. They get the three R's and they get acquainted among themselves. Difference of speech makes little difference to them and soon they are all using English. Children of pioneers, they are bright and adaptable. Lay-out shows exterior of car, interior with class of boys and girls all set for lessons; another interior showing teacher and black board; and two typical school children on their way to the car.

of wheat and flour, making a total consumption in the year of something like two billion seven hundred million bushels. If we leave Russia out altogether, with its crop of eight hundred million bushels, this leaves two billion bushels for the rest of Europe. Any time that Europe is prepared for every tenth slice of bread, or every tenth place of pastry, to substitute a bit of rye bread, or a potato, or a vegetable, she can reduce her demand on the rest of the world by two hundred million bushels a year, enough to break any market.

Let Europe substitute for every tenth slice of bread or tenth place of pastry something else, or do without that tenth, and in any year Europe could do without the whole surplus Canada has had this year from the crop of 1929.

Europe undertook to do that, and brought her requirements down to the point where she was taking only nine and one-quarter million bushels

"The United States is asking payment of all the sums advanced during the war. The United States concurrently with its farm relief is beginning to further build up all its tariffs against goods coming into the United States, making it still more difficult, if not impossible, for us in Europe to pay in goods, and on top of that they are now voting \$500,000,000 to make us pay more for such agricultural staples as we require from them."

It was not perhaps generally observed, but just a year ago Europe began to decrease its takings from North America. Europe secured the whole of the Argentine surplus, and began to look everywhere yelae in the world for further supplies. European countries also further increased their tariffs; and countries, which had not imposed tariffs put them on. Just a few days ago in our paper we saw that Sweden, one of the fairly important markets, was being protected by a new tariff. European countries increased their milling regulations, and did everything possible to encourage the use of substitutes.

Europe can, without any very great difficulty, put itself into an exceedingly strong defensive position. That continent produces, or has been producing during the past two years, something like two billion bushels of wheat per year, approximately one-half of all the world's production of wheat. Europe imports on the average six or seven hundred million bush-

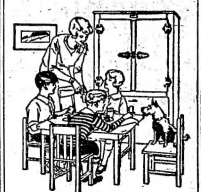

You've learned how promptly Bayer Aspirin breaks a cold or relieves a headache. But you'll never know its full efficiency until you accept its welcome relief from the stubborn pain of neuralgia, or of neuritis; even of rheumatism. The times your very bones ache, then you'll be most grateful for genuine Aspirin. It always helps, and never harms. Identify it by Bayer on the box and on every tablet.

Aspirin is the trade mark of Bayer Manufacture of Monocacetic Acid (Salicylic Acid)

I hold in my hand a copy of an article which appeared in the "People," on February 9th last, in London, England. This is a journal with a certified circulation of 2,250,000 copies, a huge circulation among the mass of the people in England. I will read only the headline: "Truth about the wheat crisis—Vast gamble to hold prices up at our expense. How Canadian Pool stored its wheat to squeeze money out of our pockets." That may be as unjustifiable as anything could be. I am not concerned as to whether it is justifiable or not. I am concerned, however, as we all are, with the fact that there is a fight

In progress. Europe and the United Kingdom are fighting Canada and the United States, because of this belief. If it is not true it has got to be corrected. If it is true then we see something of the character of the problem before this country.

HOW DID THE GUN
GET TO CANADA?

At a recent sale in Innisfail, Mr. Geo. Bryan officiating, had a gun passed to him to sell. In looking over the gun he saw the name G. Hay Williams stamped on the barrel. This made him curious, as this was the name of a gentleman of East Gage, Stafford, England, who had married his cousin some years ago.

With his usual keen sense of a newspaper story, Mr. Bryan wrote to his cousin, Mrs. G. Hay Williams, Mr. Williams having died some years ago, and asked about the gun. A reply came back last week. Mr. Williams bought the gun in question, paying fifty pounds sterling for it. He had it for some time and loaned it to a friend, but it was never returned.

As to how it came to Canada and Innisfail still remains a mystery, but that it should eventually get into the hands of Mr. Bryan is certainly a coincidence—Innisfail Province.

Eczema or
Salt Rheum
A Blood Disease

This disease manifests itself in little round blisters which contain an extremely irritating fluid. These break and subsequently a crust is formed, and the intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, is almost unbearable.

The success which

has met with in skin diseases of such severity is due to its wonderful blood cleansing and purifying properties, and we know of no other remedy that has done, or can do, so much for those who are almost driven to distraction with the terrible torture of eczema.

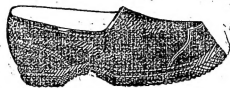

Mrs. Martin H. Giesbrecht, Winkler, Man., writes:—"I have used B.B.B. with good results for eczema. My face and shoulders were simply covered with blotches of this terrible disease. Nothing did me any good until I took your medicine and it has relieved me of the terrible suffering. I had to go through day and night."

IRVINE ADDRESSES PARLIAMENT ON TARIFF QUESTION

The following report of an address in Parliament by W. Irvine, Member for Wetaskiwin, is taken from Hansard:

Mr. W. Irvine (Wetaskiwin): Mr. Speaker, the hon. member for East Calgary (Mr. Adair) remarked that he was surprised that the hon. gentlemen on our right had not risen in protest against a resolution of this kind. As a matter of fact I would have been very much surprised if they had, for I feel that they understand, at least subconsciously, that the interests of the manufacturers are perfectly safe in the capabi-

ties of the present Minister of Finance (Mr. Dunning). So far as I personally am concerned, I subscribe neither to the shibboleth of high protection nor to the shibboleth of free trade. I stand for equal protection to all or no protection to anybody. If the present or any other administration can give protection to the agriculturist equal to that which they give to the manufacturer, I am satisfied with tariffs; if they cannot do that, then the time has come for them to wipe out tariffs entirely.

That is the principle upon which I wish to make a few remarks on this resolution. I think the hon. gentleman who introduced it (Mr. Coote) has made it very clear indeed, in fact has demonstrated its soundness by figures. He took those figures from that body which the Minister of Finance tells us has been entrusted with the examination of this very problem, and by those figures he has shown that as a result of the tariff protection which this industry enjoys, the manufacture of motor cars and motor trucks is a very profitable business. He also shows this strange anomaly, that motor cars and motor trucks produced in this country are dearer to Canadians than they are to any other people in the world. He indicates also that the manufacturers in their own interests not only take advantage of the protection which they enjoy to raise their prices, but they also take advantage of freight rates. Further, he shows that at all points this industry is perfectly capable of taking care of itself without any protection at all, and even quotes such an authority as Mr. Henry Ford to that effect. Then the hon. gentleman asks that the trucks—just the trucks—be classified as regards tariff with farm wagons and similar farm implements.

Now, sir, we thought—at least I thought, and I am sure other hon. members have thought so too—that this resolution was a very timely one. Timely because, first of all, the budget has not yet been brought down, and if there is any meaning at all in parliamentary procedure I thought that the representatives of hon. members would be taken into consideration in a serious way; and if that is to be done the time to consider our viewpoint is now before the budget is brought down; for experience has taught us—and indeed the Minister of Finance has just proved it—that if we wait until the budget is brought down, brought down in a way that is regarded as proper and constitutional, then everything is fixed and whatever we may say is not even considered, no alterations have ever been made. To make such alterations on the advice of any member not sitting on the government benches would be to admit weakness on the part of the administration, and to force changes by a vote would mean the defeat of the government. So that under the circumstances we are absolutely helpless to effect any change if we wait until the budget comes down. Therefore, if our presence here is to mean anything at all, hon. members must be permitted to express their opinions on fiscal matters before the budget has been brought down.

Also, we thought this resolution was timely, because a resolution dealing with reductions of tariffs on automobiles was brought forward, I think in 1928, by the same hon. gentleman and resulted in whatever reductions were made at that time. Then there is another reason why we thought it was a timely resolution: we believed that the new Minister of Finance was in favour of tariff reduction. Indeed, I think he is on record as having made such a declaration as recently as a few weeks ago when he was in the west. With that assurance we thought this an acceptable time to bring forward suggestions for a reduction of the duty in respect to motor trucks, feeling that we had a real friend at court who would sympathize with the appeal of the western farmers for such a pleasurable reduction as would be implied in this resolution. And surely when we considered the protection enjoyed by the manufacturers of motor cars and motor trucks in relation to the protection that the farmers got, we felt that we were not going too far when we asked that motor trucks be placed in the same tariff schedule as farm wagons. Feeling therefore that the minister was sincere in his declaration we thought this was a timely resolution.

Now, frankly, I was a little bit surprised at the minister's reply. I was surprised because, as I have a great respect for his ability, especially as a parliamentarian, and I think I noted that he had great difficulty in replying. He seemed to be searching everywhere for an excuse which would be adequate. He pointed out how far-reaching the resolution was to begin with. I do not reach a bit beyond a truck, that is as far as it reaches. And he questions the figures of the hon. gentleman, and makes the trucks to be much smaller in number than the hon. gentleman quoted, so it is not as far-reaching as we thought it was, in fact, it does not reach very far at all. Then he asks the minister questions the propriety of the resolution. He did not care to ask that it be ruled out of order, but he feels that it might be done, and the reason why it might be done is that the only person who has a right to bring forward such a resolution is the finance minister or a member of the cabinet, that no one else has any business with any fiscal matter whatsoever.

Mr. Dunning: If my hon. friend will permit me, I did not say at any time what he is now quoting as coming from me.

Mr. Irvine: Would the hon. gentleman state the difference in result from what he said and what I am saying?

Mr. Dunning: There is a very marked difference in result, and my hon. friend is quite well aware of the difference. I made no statement to the effect that no member of this parliament had anything to do with fiscal matters outside of myself or the members of the government. That is what my hon. friend is attributing to me, and he knows that is not a correct statement.

Mr. Irvine: While I am not questioning my hon. friend's correction, I am saying that what the minister means, in effect, is this, that no resolution dealing with fiscal matters will receive any consideration by this house except if it be brought down by the finance minister.

Mr. Dunning: What I said is not as stated by the hon. member. It will stand and speak for itself on the records of the house.

Mr. Irvine: I am afraid we will have to ask the minister to issue a statement of interpretation of his honourable remarks. I have been in the house a few years and I am telling what actually happens in this house. I will state it again. We wait until the budget is brought down by the finance minister with the details of the finances of the country fixed according to his best judgment. Then we are in this position, that if we give advice as to a change in that budget, good advice even, and if the minister

members have thought so too—that this resolution was a very timely one. Timely because, first of all, the budget has not yet been brought down, and if there is any meaning at all in parliamentary procedure I thought that the representatives of hon. members would be taken into consideration in a serious way; and if that is to be done the time to consider our viewpoint is now before the budget is brought down; for experience has taught us—and indeed the Minister of Finance has just proved it—that if we wait until the budget is brought down, brought down in a way that is regarded as proper and constitutional, then everything is fixed and whatever we may say is not even considered, no alterations have ever been made. To make such alterations on the advice of any member not sitting on the government benches would be to admit weakness on the part of the administration, and to force changes by a vote would mean the defeat of the government. So that under the circumstances we are absolutely helpless to effect any change if we wait until the budget comes down. Therefore, if our presence here is to mean anything at all, hon. members must be permitted to express their opinions on fiscal matters before the budget has been brought down.

Also, we thought this resolution was timely, because a resolution dealing with reductions of tariffs on automobiles was brought forward, I think in 1928, by the same hon. gentleman and resulted in whatever reductions were made at that time. Then there is another reason why we thought it was a timely resolution: we believed that the new Minister of Finance was in favour of tariff reduction. Indeed, I think he is on record as having made such a declaration as recently as a few weeks ago when he was in the west. With that assurance we thought this an acceptable time to bring forward suggestions for a reduction of the duty in respect to motor trucks, feeling that we had a real friend at court who would sympathize with the appeal of the western farmers for such a pleasurable reduction as would be implied in this resolution. And surely when we considered the protection enjoyed by the manufacturers of motor cars and motor trucks in relation to the protection that the farmers got, we felt that we were not going too far when we asked that motor trucks be placed in the same tariff schedule as farm wagons. Feeling therefore that the minister was sincere in his declaration we thought this was a timely resolution.

Now, frankly, I was a little bit surprised at the minister's reply. I was surprised because, as I have a great respect for his ability, especially as a parliamentarian, and I think I noted that he had great difficulty in replying. He seemed to be searching everywhere for an excuse which would be adequate. He pointed out how far-reaching the resolution was to begin with. I do not reach a bit beyond a truck, that is as far as it reaches. And he questions the figures of the hon. gentleman, and makes the trucks to be much smaller in number than the hon. gentleman quoted, so it is not as far-reaching as we thought it was, in fact, it does not reach very far at all. Then he asks the minister questions the propriety of the resolution. He did not care to ask that it be ruled out of order, but he feels that it might be done, and the reason why it might be done is that the only person who has a right to bring forward such a resolution is the finance minister or a member of the cabinet, that no one else has any business with any fiscal matter whatsoever.

Mr. Dunning: If my hon. friend will permit me, I did not say at any time what he is now quoting as coming from me.

Mr. Irvine: Would the hon. gentleman state the difference in result from what he said and what I am saying?

Mr. Dunning: There is a very marked difference in result, and my hon. friend is quite well aware of the difference. I made no statement to the effect that no member of this parliament had anything to do with fiscal matters outside of myself or the members of the government. That is what my hon. friend is attributing to me, and he knows that is not a correct statement.

Mr. Irvine: While I am not questioning my hon. friend's correction, I am saying that what the minister means, in effect, is this, that no resolution dealing with fiscal matters will receive any consideration by this house except if it be brought down by the finance minister.

Mr. Dunning: What I said is not as stated by the hon. member. It will stand and speak for itself on the records of the house.

Mr. Irvine: I am afraid we will have to ask the minister to issue a statement of interpretation of his honourable remarks. I have been in the house a few years and I am telling what actually happens in this house. I will state it again. We wait until the budget is brought down by the finance minister with the details of the finances of the country fixed according to his best judgment. Then we are in this position, that if we give advice as to a change in that budget, good advice even, and if the minister

members have thought so too—that this resolution was a very timely one. Timely because, first of all, the budget has not yet been brought down, and if there is any meaning at all in parliamentary procedure I thought that the representatives of hon. members would be taken into consideration in a serious way; and if that is to be done the time to consider our viewpoint is now before the budget is brought down; for experience has taught us—and indeed the Minister of Finance has just proved it—that if we wait until the budget is brought down, brought down in a way that is regarded as proper and constitutional, then everything is fixed and whatever we may say is not even considered, no alterations have ever been made. UNANIMOUS REGRET MR. YOUNG CANNOT BE WEED INSPECTOR

(Continued from Page 1)

ceed fifteen days in the year necessarily occupied in laying out and inspecting work performed or to be performed for the benefit of the Municipal District. Carried.

Motion by the Reeve that the rate of wages to be paid by the Municipality shall be as follows: Man only, 35c per hour; Man and one team, 60c per hour; Man and four horses, 85c per hour; Graderman, 75c per hour; Tractor Engineer, 75c per hour; General Foreman, 65c per hour. Carried.

Secretary read letter from J. V. Holm applying for position as general foreman or graderman. Mr. A. Knight also applied for position as general foreman. Motion by Councilor Helmers that A. Knight be engaged as general foreman was carried.

Motion by Councilor Helmers that Mr. W. W. Humble be engaged as graderman and that Mr. Carl Arnold be engaged as tractor engineer. Amendment by Councilor Strohschein that hiring of graderman and tractor engineer be let by tender. On taking the vote the amendment was lost and the motion was sustained.

Mr. Wm. Lindley interviewed the Council asking them if it was their intention to re-engage himself with his John Deere tractor to work in conjunction with the grader as last year. After some discussion, motion was made by Councilor Strohschein that council re-engage Mr. Lindley with his tractor, wages to be \$1.50 per hour and Municipal District to supply necessary oil and gasoline. Carried.

It was brought to the attention of the Council that it was necessary to have another bunk-house built. Mr. W. W. Humble offered to do the work for 65c per hour. Councilor Helmers made motion that W. W. Humble be engaged to build this bunk-house at the wages stated. Motion carried.

Mr. R. C. Young, who has been the Municipal Weed Inspector for the past number of years, stated that he would not be able to accept a reappointment to that position this year owing to the ill-health of Mrs. Young. The Council regretted this decision, and Councilor Strohschein moved a vote of thanks to Mr. Young for his past efficient services as weed inspector. The vote of thanks was passed unanimously by the Council and the ratemakers present concurred in the motion.

Mr. August Johnson applied for position of weed inspector for the coming year. Councilor Helmers moved that Mr. Johnson be engaged as weed inspector for the year. Stating that as only one application had been received and as he thought it in the interests of the District to receive more applications before deciding an appointment to this important position. Councilor Helmers moved an amendment that the engaging of weed inspector be held over until the next meeting to give other applicants a chance. On the vote being taken the amendment was carried.

Motion by the Reeve that the rate of pay for weed inspector shall be \$4 per day and 10c per mile travelled and that the number of days for the work shall be limited to 30 days. Carried.

The matter of resolutions passed by the ratemakers at the annual meeting was then brought up for discussion. The Reeve moved that a committee of three be appointed to interview the Government and get all information available as to the possibility of travelling the Wetaskiwin-Pigeon

Lake road and the Mill-Pigeon Lake road. Motion was carried.

Motion by Councilor Strohschein that the following persons be appointed to comprise the committee: Councilor Helmers, Reeve Arnold and Mr. A. C. Sproule. Carried.

On the matter of the ratemakers' resolution to the snow plow being brought up for discussion, motion was made by Councilor Helmers that this matter be tabled for the present. Carried.

Bills and pay sheets were then presented for payment and on motion of Councilor Helmers, these were ordered paid.

Meeting was then adjourned on motion of the Reeve.

BRITISH TAX LEVY UP 200 MILLIONS

London, March 13. — One hundred million dollars of new taxation must be raised by Hon. Philip Snowden, chancellor of the exchequer when he brings down his budget in the house of commons next month.

Great Britain's debt and sinking fund charges will require approximately \$1,750,000,000, her army and navy \$550,000,000. Her civil services and general national needs nearly \$1,500,000,000. The whole budget is expected to total well over \$4,000,000,000, or an increase on last budget of nearly \$200,000,000.

BATISTE AT THE BONSPIEL

De noder day a frien' of mine,

He say, "Batiste," to me,

"Why don't you go upon de rink

For see bonspiel?" say he:

"Dere's plenty char for sit upon,

De place she's nice and warm,"

An so at last I tink I go,

She can't do me no harm.

Wall, dat is de mos' foolish game

I never yet did see,

For all dey men was yell so loud

I tink dey go craze.

Dey have de stone like big speeton

An' shove it wif der han'

But w'y dey got so much excite

I can not understan'.

De man down at de noder en'

"Ea' put hees broom down—go,

An' den he yell, "Now tak dat ice"

Dat's foolish t'ing you know;

He can not take de ice away

She's frozen down so hard,

But still he yell, "Yes, tak her out,

I do not want de gard."

An' see dem feller sweep de broom

For w'y I can not tell,

Dere is not dirt upon de ice;

An' den some feller yell

"Yes! Hold her up!"—say, w'a' he

mean?

Madam's not here at all,

An' mam'selle in de gallerie,

I do not see her fall.

All sort of feller play dat game

Dere's some dat's t'n and long

An' some dat's maybe short an'

stout,

An' some dat's pretty strong;

But w'en dey yell de stout man's

"wide"

An' man dat's long an' tall

"He's narrow" yell, I do not tink

I stan' for dat at all.

I wonder w'at dat name she mean;

Wif 'bon' in French she 'good

An' 'spiel' is Scotch for mak beag

talk.

Dat's w'a' I understood;

I s'pose she's sort of half-breed

name—

I spik de way I feel—

I watch dat game for two-tree

night—

I tink she's mostly 'spiel'.

WHEN NIGHT CLUBS ARE TRUMPS

(Frederic Arnold Kummre)

"Why do people go to night clubs?"

I asked the manager of one of New York's smartest resorts.

"Because they are damned fools,"

he said. But he winked as he said it.

We entered a big room against a

billowing wave of cigarette smoke,

perfume, and noise. Wooden noise,

from the pounding of tables on table

tops, buzzy noise from the orchestra.

One felt rather than saw the

bizarre decorations and sensuous

lights. A girl was dancing beneath a

baby spot. Her shapely body flowed

like milk.

All around were faces staring—

cool, cruel faces, gray with the night-

club pallor. Young faces and old

ones, ugly and beautiful, stupid and

farling.

As we took our seats the dancer

finished her number. The rattles

gave her staccato applause.

From the audience we came a

protesting female voice. "But, Henry

—the woman was practically naked."

"I know, my dear, but such attractive

nakedness. No one could ever

say they married her for her money."

Bottles began to appear with amaz-

ing swiftness. All sorts and condi-

tions of people. Business men and

bootleggers—college boys or Broad-

way racketeers—society leaders or

kept women—who could tell? Every-

body seems to be drinking. Is that

where the thrill comes in? Scarcely.

Those who wish to drink do not need

to sit up in night clubs to do it. It

would be easier at home.

A blast of applause sent the cigarette

smoke whirling. A superbly

built girl appeared to do an Indian

dance. Her body interpreted the sex

motif. The virility of her naked

form was astonishing. Men rose and

applauded. The audience went wild.

In the eyes of the women were feline

glints. Here was real competition.

For the first time the room became

silent. Something swept over it like

a flame. You could almost hear the

beat of the tom-toms—feel the hot

glare of a tropic sun. Under a brilliant

spot the girl finished her dance

in a huddle of quivering flesh.

More drinking. Many dry throats,

after that blazing dance. Five men

at a table were pounding in unison.

They had found the Scotch good. A

small girl with vivid burnt-orange

hair—one of the official hostesses—

joined them. One of the men drew

her down beside him and talked to

her earnestly, persuasively, but she

merely shook her head.

"He seems to be trying to string

our little friend," I said. A wise-

cracking hostess glanced over her

shoulder. "Sweet chance," she laugh-

ed. "The only way anybody can

string that baby is with pearls. She

doesn't believe in free love."

The girls of the ensemble now

came out for their concluding num-

ber. Their sketchy costumes were

made of pink silk; it was necessary to

look twice to be sure they wore any

at all. Shouts from the tables. A

few gasps.

Not everyone, however, is under

the same spell. Through a lull in the

clamor came a rasping voice. "Talk

about your high-priced artists, I'd

like to know who wrote this bill of

fare!"

Suddenly the line of girls receded

like the foam of a breaker. In a mo-

ment the floor was clear for those

who wished to dance. The orchestra

began a distracting bit of jazz.

A commotion near the doorway at-

tracted my attention. An unhealthy

looking youth had just come in. His

face was flushed and swollen—the

rings under his eyes looked like bal-

loon tires. His air was that of one

who owned the place.

"Not a pretty sight, is he?" I re-

marked.

"No," agreed a society lady at our

table. "He's disgustingly drunk most

of the time, and a rotter all of it.

Yet he's being invited everywhere.

He's got millions."

"Why do people have him?" I said.

"Why did his mother have him?"

she replied disdainfully.

More people were dancing now.

The small floor was packed. The

multicolored lights at times made

the faces ghastly—the faces of wit-

ness and satyrs. At others one saw a

revel of dryads and fauns.

I had asked the manager earlier in

the evening if any members of the

underworld were present. He came

over to me now. "Want to see a cou-

ple of big shots?" he asked.

I nodded. His eyes moved toward

a man and woman dancing. The

woman was quietly dressed, hand-

some. The man, stout, in his fifties,

looked like a dignified but somewhat

tipsy bishop.

"The woman is the sweetest of a

big gambler. Runs a floating crap

game. She could give the police the

lowdown on at least two underworld

murders, if she wanted to and didn't

know she'd be bumped off if she did.

As it is she's scared stiff she'll be

taken for a ride anyway, just on the

chance she might talk. Can't sleep

anymore. That's why she comes here."

"And her partner?"

"One of the biggest booties in New

York. Operates in carload lots. Mil-

lions of dollars back of him."

I stood for a moment watching the

other dancers. Many beautiful wo-

men. A sprinkling of young girls.

Astonishing, I thought, such a man

rubbing elbows with young girls

from Park Avenue. Still, for all I

knew, he might be doing business

with their fathers. Some of the

dancing going on was scarcely pret-

ty. No matter how sophisticated a

man may be, there are limits to what

may be done in public. But nobody

here seemed to care.

The music, a bit from one of the

shows, had turned both the dancers

and the orchestra into mad acrobats.

Snare drums and brass ripped the air

into crazy-quilt patterns. The waves

of cigarette smoke, of perfume, of

raw humanity had taken on alcoholic

overtones. Two men, with hoteled

girls, rose from a nearby table, went

to the bar.

It was three o'clock, and as eight-

seers began to leave, the real night

club hounds began to appear. There

are many of these, wealthy idle, who

find themselves, at midnight, like

the deceased atheist, "dressed up in

do-nothing to go to except the night

clubs.

Astonishing places, to which people

go for astonishing reasons. I heard a

few from "because they are damned

fools" to the classic remark of an

ex-Follies girl: "What else is there to

do at night?"

To the great mass of people the

real lure of the night clubs is that

abuse word "sex." The atmosphere

FOR SALE

LIQUOR CLEARANCES BANNED BY HOUSE

Ottawa, March 15.—With the certainty that hardly had been anticipated, the government legislation which bans the clearance of liquor to any "dry" country, went through the house last night without a division. Only one member, Mr. Power of Quebec South, spoke against it, but he had no opportunity of voting as no vote was taken.

In its principle, the measure had the approval of Hon. R. B. Bennett, leader of the Conservative party, but the time taken in bringing it in and in implementing the recommendation of the royal commission on customs four years ago aroused his most critical condemnation. This, and the unanimous adoption of the bill in principle were the outstanding features of the day's abbreviated debate on the subject.

The bill constitutes the largest item to date of the session's programme and it is an unusual measure of international incidence.

WOMEN'S INSTITUTE DIST. CONFERENCE AT DRUMHELLER

Constituency conveners and delegates from District No. 3, Alberta Women's Institutes, gathered in the United Church, Drumheller, for a conference on Tuesday, March 13th, about 200 being present.

Reports were presented from thirteen constituencies representing 106 Institutes, showing the work to be in a flourishing condition.

At noon the Drumheller Institute entertained at a complimentary luncheon in the basement of the church. A splendid lecture on Oral Hygiene, by Dr. Harry Thompson of Toronto, was a feature of the afternoon session. He stated that upon coming to the Province last November, he had asked for the assistance of the Alberta Women's Institutes as well as other organizations and that the response had been beyond his expectations. The demands had been so great upon his time that he found it impossible to fill them all.

The work of the Girls' Clubs was found to be increasing so as to make it difficult for the Provincial Supervisor to direct it alone. Mrs. J. A. Rodell, Wetaskiwin, was elected District Supervisor to assist Mrs. J. Macgregor Smith of Edmonton, in this work.

A pleasing feature of the evening session was the presentation of a gold mounted gavel to Mrs. H. J. Montgomery, the Provincial President and former Director of the District. Mrs. J. L. Scott of the City of Edmonton, the presentation in a happy manner.

Among those present from other districts were Mrs. J. Macgregor Smith, Edmonton, Provincial Supervisor of Girls' Clubs, and Mrs. J. P. Price, Calgary, Provincial Publicity Secretary, both of whom brought greetings and spoke of the work of their departments.

The sessions were brightened with musical selections by the winners at the recent Drumheller Musical Festival, among them the United Church Ladies' Chorus. Madame Kereski, a former Grand Opera singer, also favored the audience with Russian Folk Songs, wearing the picturesque native dress of her country. Mrs. F. B. Moore, Red Deer, extended an invitation from the Red Deer and Innisfail West Constituency to meet in Red Deer in 1932. This was cordially accepted.

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

Wetaskiwin, March 18.

To the Editor:

Dear Sir:

There are rumors floating around regarding the car accident of Dec. 4th, 1929, in which I was quite seriously injured, and the story is very favorable for the driver of the car which hit me, insinuating that I saw the car coming and that my friend who was with me stopped, and I simply walked in front of the car, turned around facing it, and of course he couldn't do otherwise than run over me. But this is not true. I, no doubt, must have been in front of the car, I would not have had my foot and ribs broken, besides my right leg at the knee and hip seriously hurt. The fact is, my friend and I were crossing south from Chalmers' hardware, and we were partly across the street, walking side by side, when I was matched off my feet and thrown 10 or 12 feet, missing my friend by only a few inches. We both have good sight and hearing, but neither of us saw any car, lights, or heard any warning signal whatever. R. R. RANDOLPH.

NOTICE

M.D. BIGSTONE 459
Under Section 4, Tax Recovery Act 1929, all land taxes with respect to which are in arrears for 1929 and previous years, will have caveat filed against them on the first day of April next. Land owners wishing to avoid caveat charges and subsequent costs will please have these arrears of taxes in the hands of the Secretary before the 28th day of March, 1930. (Signed) T. S. STEEDMAN, Secretary-Treasurer, Falun, Alta. 52-2t

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of JOHN GRANT ROBERTSON, late of the Post Office of Yeoford (formerly of Battle Lake) in the Province of Alberta, Farmer, Deceased.

Notice is hereby given that all persons having claims upon the Estate of the above-named JOHN GRANT ROBERTSON, who died on or about the first day of February, A.D. 1930, are required to file with WILLIAM McCALLUM, of the City of Wetaskiwin, in the Province of Alberta, Administrator, or with the undersigned solicitors by the 17th day of April, A.D. 1930, a full statement duly verified of their claims, and of any securities held by them, and that after that date the Administrator will distribute the assets of the Deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to their knowledge.

Dated this 17th day of March, A.D. 1930.

ODELL & RUSSELL,
Solicitors for the Administrator.

NEW NORWAY WEST

The many friends of Mr. Henry Davis will be sorry to hear he is confined to his bed.

The Ladies' Aid meets at the Albin Lindholm home. The ladies are planning on a food sale and tea near Easter time, and will then draw the lucky number on the white and gold quilt they are selling numbers for.

Mrs. Earl Upshaw and sons Clayton and Ronald, visited from Thursday to Monday at Stettler, with relatives.

Mr. Carroll Smith of Stettler, drove up Sunday, bringing Miss Margaret Gillette of Yeoford, who has been resident at the Smith home the past week. She is spending the week at the M. McIntyre home.

Rev. Larson of Camrose, conducted services at Little Battle church on Sunday.

Mr. and Mrs. J. J. Jacobson, Mr. Myers and Miss June Beller of Edmonton, were visiting with their parents, Mr. and Mrs. J. P. Beller, on Sunday.

Mr. Fred Perkins went to Edmonton last Friday with a truck of hogs.

Mrs. Ed. Meyers is visiting with Mr. and Mrs. Frank Thorne at Wetaskiwin, this week.

Mrs. Percy Smith, who has been visiting at the Frank Bartlett home the past two weeks, returned last week to Stettler. Mrs. Edith Butler accompanied her for a visit.

Mrs. Burnham disposed of her household effects at the McNary sale on Monday. She expects to leave about the first of May to make her home with her daughter in Washington.

Mrs. Custer passed away at her home three miles east of New Norway, on Monday morning, March 17th.

Mr. and Mrs. Wismer and family, who have been assisting with the farm work at the McIntyre home for the past year, left Friday for Calgary to make their future home.

Mrs. Jack Shaw, Mrs. Percy Cummy and Marjorie, Mr. and Mrs. Hope, Ore., were Sunday evening guests at the Mrs. LaPoint home near Ferintosh.

The children at the Hoover school experienced a thrill on Monday when an airplane from the north passed over.

Mr. and Mrs. J. P. Beller had as their guests on Sunday, Mr. and Mrs. Emil Pearson, Mr. and Mrs. Elmont Beller, Mr. and Mrs. J. Jacobson, June Beller and Mr. Art Meyers of Edmonton.

A large number of friends pleasantly surprised Mr. Albin Lindholm on his birthday on Saturday evening, March 15th. The evening was spent in games and at the close a lunch was served.

Mr. and Mrs. Ed Wright and Mr. and Mrs. Mitchell of Ferintosh, and Mr. and Mrs. W. Cole were guests of Grandma Howey at the Homer Howey home on Sunday.

Mrs. Wm. Meyers was visiting her daughter Mrs. Frank Thorn, in Wetaskiwin, several days last week.

Mr. and Mrs. Frank Hanson and family, old residents of the New Norway district, have bought a home near Dorende and are moving there. Miss Mary Snyder spent the week-end in Wetaskiwin.

Mrs. D. Widen and new baby daughter returned from the Wetaskiwin hospital one day last week.

VERDUN U.F.A.

The regular meeting of the Verdun U. F. A. was held on Wednesday, March 12th, with quite a large number in attendance. Subjects that were discussed were, re buying tamarac posts, sales groceries from wholesale co-operatives, results so far of last year's weed killer that had been purchased through the Local, and the moving of the teacherage from present location next to school house.

The delegate, M. J. Schreifels, gave a report of the convention at Calgary.

Messrs. S. Peterson and M. E. Sears were delegates chosen to attend the Wetaskiwin Political Constituency Association convention to be held there on March 19th, after which lunch was served.

LARGER SCHOOL DIVISIONS ARE PLANNED IN ACT

Edmonton, March 14.—Creation of larger school divisions to be supervised by a superintendent and assistants appointed by the minister of education, but on an optional basis, is provided for in the new school act, second reading of which was moved in the legislature Friday afternoon by Hon. Perren Baker, minister of education.

The new bill in printed form was distributed to the members during the afternoon and is a revision of the old one, plus the new action providing for creation of school divisions. It is made clear that the section is not mandatory in any way but is designed to give the opportunity to any school district desirous of trying out the plan.

If established by the minister as the result of a favorable vote, such a division shall consist of five subdivisions consisting of such rural school districts in the division as may be designated by the minister, who also has power to increase or lessen

the number of at any subsequent time, or add to, take from, or transfer any school district.

Each school district is entitled to one delegate to the division, and these delegates, in turn, nominate candidates for the office of division director, one to each subdivision, and voters in each subdivision deciding by ballot which candidate is to represent them, in the event of more than one candidate standing for election.

The five directors so elected shall constitute the board of the school division; three of them are to remain in office two years, and the other two, for one year, the old system of "drawing the names out of the hat" deciding this question.

Directors are paid \$5 per meeting plus mileage of ten cents a mile, for each board meeting. The division board appoints all teachers in the division, makes necessary provision for secondary education, adopts a salary schedule, and pays the teachers salaries direct each month.

Provision is also made in a division for the employment of physicians, dentists and nurses to take care of the health of the pupils.

Funds are levied by the division from the municipal districts and improvement districts for school purposes.

BITTERN LAKE

Raymond McNary, who has been visiting with friends in Edmonton, returned home on Tuesday.

Mr. B. Blakely loaded a car of wheat during the week.

A. L. Peterson has moved his well drilling outfit to Bittern Lake and is now drilling for A. Cole, this being his sixth well during the winter.

H. J. Peterson, who has been on his homestead in Peace River, returned back here. We understand that he will work for Hazelwood and Son.

Tom Devall has rented the E. Pearson farm, and moved during the week. Wm. Ramsell saved wood for Chas. Lomas on Friday, and Howarth and Green sawed wood for R. Elgert on Saturday.

J. Sandurs has rented his farm to his brother, and has left for Buck Lake, where he has taken a position with the Snell Brothers. Mrs. Sandurs and family will leave for their new home some time in April.

W. J. Hoover has rented his farm to R. Link, of Chumose West. A. Anderson has erected a saw mill of his own.

FALUN

A very enjoyable evening was spent at the card party held at the home of Mr. and Mrs. A. Chapman. Nine tables of whist were played, honors going to Mrs. D. Cronin, who received a salad bowl, and to Mr. R. Cronin, who received an ash tray. The consolation prizes went to M. French and Mr. A. Chapman. All enjoyed the lovely lunch served by the ladies.

Mr. and Mrs. Fabian Swanson of Red Deer, motored to Falun last Sunday to visit their parents.

Mr. J. McCrea of Westeros, was very agreeably surprised on Sunday,

March 9th, when a number of friends from Falun gathered at his home to enjoy a social afternoon.

Mr. T. S. Steadman left on Tuesday to attend a convention at Calgary.

Miss Soboloff of Edmonton, has been visiting with her parents for a few days.

The winner of the fruit cake contest was Carl Hanson of Brightview, who won the cake with an estimate of 3045 raisins, the correct number being 3040.

HARVEST HOME

The card party given in the school by Alfred Klemmensen on Friday last, proved to be very successful. After supper the cards were put aside and dancing began. Mr. Elmer Maynard furnishing the music. The prize-winners were: Ladies 1st. Mrs. C. Maynard, salt and pepper shakers; Gents 1st. Alfred Maynard, set of ash trays; consolation, Mrs. E. Maynard and Mr. Carl Smith, Sr.

Carl Maynard and C. Denton, the champion whist players, as some folks say (where-ever they get it from) is a conundrum had the satisfaction of winning by a fair score from the Carlson Bros. (little better, little better). What say, Bittern Lake scribe?

Watch for the rubber. E. Maynard is sawing lumber these days. He has around 5,000 logs waiting.

Curry Norman and Everett Denton left for St. Paul last week.

Mr. and Mrs. Cowan have returned from Saskatchewan, where they spent the winter. Their son, Romeo and family came back with them, and intend to settle in this district.

A teacher asked her pupils "To what class of the animal kingdom do I belong?" A pupil: "I don't know, teacher, Pa says you're an old hen and Ma says you're an old cat."

Kit: But anyway, dear, we must give Jack credit for getting her a nice engagement ring.

Wat: Oh, no, we needn't; the jeweler's given him credit for that.

W.C.T.U.

At the regular meeting March 11, arrangements were completed for a tea and food sale, and rummage sale decided on some time in May. Donations gratefully received, may be left with the president, Mrs. Mellett.

A committee was appointed to interview the teachers of Grades 6, 7 and 8 re poster contest, the prizes for which will be awarded at the Provincial Convention. It was reported that Mr. Hull has a temperance rally in view in the near future.

An interesting feature of the meeting was a round table talk on a few of the Department reports. In the anti-narcotic report, F. H. King in his "Farmers of Forty Centuries," is quoted—"the western habit, tobacco, selfish beyond expense, filthy beyond measure, and unsanitary in its polluting and oxygen destroying effects upon the air all are compelled to breathe. It has already become a greater and more indispensable burden upon mankind than opium ever was."

The celebrated Dr. Saleh of England says 60 per cent of the babies of smoking mothers die.

The wonderful advancement made in the Department of Canadianization is shown in the work of some one actively engaged in teaching temperance where none of the rest of us can work. Some of the ways of T. Aid work was reported helping strangers to find relatives. Providing homes for them during the stop-overs, etc.

The Evangelistic report stressed the necessity of carrying the work forward because of the great opportunity for work.

The Peace and Arbitration report gave wonderful statements, Canada, at the last session of Parliament, ratified the signing of the Paris Pact, but inconsistency was apparent when at that session Parliament voted a million dollars for cadet training. The Congress of Mexico saved money on armaments and spent it on education.

The Press report spoke of the demoralizing influence on Canadian character by some American papers and periodicals.

The following is a report of the work done at the Experimental Farm, Lacombe, as it appears in the report of the Minister of Agriculture, for the year ending March 31, 1929:

With a warm dry spring seeding was completed earlier than usual but much of the grain seeded on spring ploughing did not germinate until rains came in June. After that all crops made a strong growth but were damaged by frosts in August.

The Shire stallion "Shelton Topper"—35528—has had an excellent breeding season, siring seventy mares. In addition to the breeding operations experimental work was carried on in the control of joint ill, and methods of wintering brood mares and idle horses. Beef cattle are represented at this station by a splendid herd of Aberdeen-Angus cattle and the work centres largely around the development and sale of breeding stock. There is also a fine dairy herd of Holsteins. Both herds have successfully passed the tuberculin test. Studies in contagious abortion are now being carried on in co-operation with the Health of Animals Branch. A number of swine feeding tests were also conducted and preliminary work was done towards the establishment of a system of Advanced Registry for swine.

Results obtained in the field crops investigations indicate that while wheat is the most profitable crop produced, better results with respect to yields, profit, weed control and soil hygiene are obtained if a mixed farming rotation is followed.

Variety and strain tests of cereals and forage crops were continued and field experiments in the control of root rot were initiated.

The flock of White Wyandottes have shown a very satisfactory increase in egg production during the past year and the birds which reacted to the tests of Bacillus Pullorum have been disposed of. Some interesting and useful experiments were conducted and data were recorded on the cost of egg production and the cost of rearing young chicks.

The highest yield from any one colony in the spring was 310.5 pounds of extracted honey, and results on the

When the liver gets out of order it is necessary to help restore its proper function by removing the bile that is circulating in the blood and poisoning the system.

All the troubles coming in the train of a disordered liver may be quickly relieved by using

Milburn's LAXATIVE PILLS

Miss Amy Gardiner, Queensland, N.S. writes:—"For years I was troubled with my liver, and used to have awfully bad bilious spells."

"I decided to try Milburn's Laxative Pills and I got wonderful relief in a very short time."

Price, 25 cents a vial at all druggists and dealers, or mailed direct on receipt of price by The T. T. Milburn Co., Limited, Toronto, Ont.

More than \$50,000,000 will be expended on new equipment, new buildings and construction and improvement to existing equipment and roadbed by the Canadian Pacific Railway during 1930, according to an announcement made recently by E. W. Beatty, chairman and president of the company. Of this huge sum, \$14,000,000 will be expended in new equipment and conversion and improvement of existing equipment, \$5,000,000 in telegraphs; Canadian Pacific hotels from coast to coast will benefit by \$3,500,000; rail facilities in the west will account for \$10,000,000 and \$7,500,000 will go on expenditures for eastern Canada lines. The fifty millions will include \$9,350,000 for maintenance during 1930, but does not include large expenditures on ocean steamships, now in hand, and on immigration work.

The Times gives commercial printing at right prices.

More than \$50,000,000 will be expended on new equipment, new buildings and construction and improvement to existing equipment and roadbed by the Canadian Pacific Railway during 1930, according to an announcement made recently by E. W. Beatty, chairman and president of the company. Of this huge sum, \$14,000,000 will be expended in new equipment and conversion and improvement of existing equipment, \$5,000,000 in telegraphs; Canadian Pacific hotels from coast to coast will benefit by \$3,500,000; rail facilities in the west will account for \$10,000,000 and \$7,500,000 will go on expenditures for eastern Canada lines. The fifty millions will include \$9,350,000 for maintenance during 1930, but does not include large expenditures on ocean steamships, now in hand, and on immigration work.

The Times gives commercial printing at right prices.

BRITAIN WILL COME BACK

(Boston, Mass., Transcript)

England has been in crisis many times, but has always surmounted its difficulties in one way or another. The stars in their courses, seemingly, fight for her—which is but another way of saying that her people are unrivalled in the world in intelligence, in industriousness, in resource, in enterprise. It was England that staged the Industrial Revolution which transformed the civilized world. There is no reason to suppose that the great qualities which have named are extinct in England, in Scotland, in Ireland. By just what means British intelligence and British enterprise may hope to turn a profound adversity

into a new and general prosperity, no one can say. If the present Labor government should be able to find this means, it will gain lasting renown and enormous political prestige. At this distance the task seems beyond human achievement. Industrially, commercially, England has taught the rest of the world to do business. She seems now to be in the perilous and indeed fatal position that the great Napoleon was in after he had taught generalship to the rest of Europe. But it is too early to say "England is done." If she regains her economic position she will, after all, be only repeating history.

You would not be ashamed of your stationery if it had been printed at The Times office.

OUR OTTAWA LETTER

(By Win. Irvine)

The first want-of-confidence motion of the Session will be discussed in Parliament today. But before I tell you about that I must mention some of the resolutions dealt with during the week.

Mr. T. Church of Toronto, was first

Weak and Nervous
Tired and Worn Out
Couldn't Do Housework

Mrs. James Hutchinson, Gooderham, Ont., writes: "I had been a great sufferer, for two years, with my heart and nerves."

"I could not do any work, and was so weak I could not stand on my feet long before I would have to lie down."

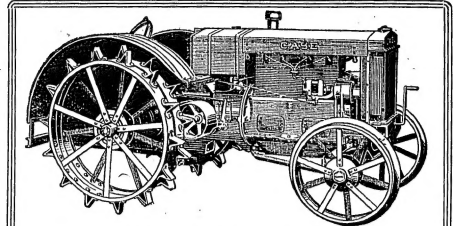

"I started in taking

and I will never be without them as I find them the best medicine I have ever taken, and I can safely say they saved my life."

"On all weak and nervous

women, who are tired and worn out I would say: 'Get a box of Milburn's Heart and Nerve Pills at once,' and they will be surprised at the difference in their health in a very short time."

Price, 50 cents a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

J. S. Thompson

soldier and placed on the Department. This motion was disposed of by a Government substitute motion, a form of closure, referring the resolution to a Committee. The rest of the week was occupied with resolutions brought forward by members of the Co-operative Groups.

Mr. Coote of Macleod, moved the following motion: "Whereas motor trucks are now largely in place of wagons for hauling grain and other produce to primary markets, therefore be it resolved that, in the opinion of this House, the Custom tariff on motor trucks should be reduced to a level corresponding to that charged on other agricultural machinery."

Mr. Coote demonstrated by actual figures that this branch of the motor industry does not require the high protection it now enjoys. There were 31,468 motor trucks exported from Canada in 1929. Amongst the countries buying trucks from Canada are the Argentine, Australia, Brazil, British East Africa, South Africa, West Indies, Ceylon, Chile, Colombia, Egypt, New Zealand, Panama, Roumania, Uruguay, Venezuela, the United Kingdom, etc. The financial statement from one company was given. It was signed in 1929. The entire capital was less than seven million. Since that time 72% of the Company's earnings have been re-invested in the Company and to-day its assets are in excess of forty millions.

Moreover, it was shown that it costs the manufacturer \$35.00 per car for freight shipping a car load. The cost of shipping one car is \$75.00, but the manufacturer always adds \$75.00 freight charges to the price of every car, thus making a profit on freight charges of \$37.50 on every car. Honorable Mr. Dunning, Minister of Finance, spoke early in the debate. He side-stepped the issue and made excuses for not doing anything. The Progressives who sit with the Liberals in support of Mr. Coote. The Minister was put to his wits end. After a consultation with Mr. Dunning, the latter moved the adjournment of the debate, which is in effect under present procedure equivalent to the closure. Thus the parties who fight each other outside of parliament stand together in parliament on the issue of protection.

The next was a resolution of Mr. Spencer which was agreed to. It read as follows: "That in the opinion of this House, the Government should take into consideration the advisability of to one-third the cost of establishing making grants to the Provinces equal and to cover the cost of public health units as may be organized."

Here and There

(488)

Smashing all known records for the 120 miles of heavy going that characterized the International Dog Sled Derby run at Quebec recently, Emilie St. Godard galloped in to his fourth victory in the event when he led Leonard Seppala to the tape by a margin of five minutes first in eleven hours, one minute and 27 seconds for the whole distance. St. Godard won \$1,000 cash and a gold cup. There were twelve contestants in the race.

The western branch lines construction programme of the Canadian Pacific Railway for 1930, announced at headquarters of the company recently, will involve an expenditure of \$1,000,000, said C. Coleman, western vice-president, interviewed at Winnipeg. In addition to this sum, ten million dollars will be spent on improvements designed to increase the capacity and efficiency of lines operated in the west.

Purchase of the Algoma Eastern Railway by the Canadian Pacific Railway is announced by F. W. Reilly, chairman and president of the latter company. The property runs between Little Current and Sudbury and its purchase is subject to approval of the board of directors of the Canadian Pacific and to ratification by shareholders at the annual meeting to be held May 7 next.

For several years Canada has led the world in aerial surveying and last year consolidated that leadership by applying, for the first time in any country, aerial methods to geodetic reconnaissance and transportation. Around 75,000 square miles were covered by aerial photographs last year by the Royal Canadian Air Force and the Canadian Government Department of the Interior.

Canadian investments abroad at the end of 1928 totalled \$1,579,074,000, according to a recent official estimate. Of this amount \$874,626,000 is invested in the United States; \$131,915,000 in Great Britain; and \$572,533,000 in other countries.

Available horsepower in Canada is 20,197,000 horse power under conditions of ordinary minimum flow and 33,113,000 horse power under conditions of ordinary six months flow. Only about 5,000,000 horse power has been harnessed.

The first Canadian woman to be appointed to the Senate and the question was carried to the Privy Council which held that women were persons and therefore entitled to sit.

About 13½ million meals a year are served to travellers by the Canadian Pacific—that is to say, 37,000 meals every day or 259,000 every week. This gigantic total is made up of about 4,000,000 in dining cars and station restaurants; 4,450,000 on Atlantic or Pacific steamships; 1,250,000 on inland and coastal steamers, and 3,500,000 in the company's hotels and bungalow camps.

Although the minister of health in his speech, refused to implement the terms of the resolution, the debate was so much in favour of Mr. Spencer's motion that it eventually was allowed to pass.

Mr. Speakman the following day moved a resolution which should be of real service to at least one class of farmers, as it asked that "consideration be given to the setting up of a system of intermediate credits for agriculture." The Banks provide short term loans, the Farm Loan Act provides for long term loans; but stock men who may wish to borrow for a period of two or three years cannot use either of these facilities. Mr. Dunning, as usual, was for waiting and for doing nothing at the present time. Eventually, however, he agreed to an amendment which referred Mr. Speakman's motion to the Banking and Commerce Committee. So a little progress was made.

The discussion on a resolution by Miss McPhail to the effect that for every \$100 expended for military purposes in Canada, the Government should spend \$1.00 for the promotion of peace and that to this end a chair of international relationship should be established in each of our Universities, was the most interesting and worth while of all the debates so far this Session. Space does not permit a resume. The result was that the Government accepted an amendment referring the question to the Standing Committee on Industrial and International Relations.

The vote of no-confidence now before the House was moved by Mr. M. C. Senn, Conservative Member for Holmstead. On a motion to go into supply he moved that the Order-in-Council by which the provisions of the Australian Treaty was extended to New Zealand be rescinded, and negotiations be undertaken for a more equitable arrangement. This promise to be a very interesting debate. The co-operating groups having voted against the Australian Treaty when first drawn up will have to support the motion, especially since the United Farmer bodies have passed resolutions for its abrogation. Of course, the present motion deals only with New Zealand. We may move an amendment to rescind the treaty with Australia also. But if we fail to carry the motion, it is likely we will support the main motion as being part of what we want.

GROWING DEAF
WITH HEAD NOISES?
TRY THIS

If you are growing deaf of hearing and fear Catarrh of Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parmit (double strength), and add to it ¼ pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrh of Deafness who has head noises should give this prescription a trial.

NOTHING TO SELL

(Uncle Walt)

It is a pleasant thing to meet a man of aspect mild and sweet, who seeks the shanty where you dwell, and hasn't anything to sell. No motor cars or real estate, or patent hinges for a gate, no new inventions weird and strange, no remedies for itch and mange, no counterpoise of a new design, no Volstead substitutes for

What Will
you doWhen your
Children Cry
for It

There is hardly a household that has a bottle of Castoria. At least five million homes are never without it. If there are children in your family, Castoria is almost daily need of its comfort. And any night may find you very thankful there's a bottle in your house. Just a few drops, and that cold or constipation is relieved, or diarrhea checked. A vegetable product, a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fussy or restless, Castoria is never more popular with mothers than it is today. Every druggist has it.

Fletcher's
CASTORIA

Acids in Stomach
Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist some Bismarck Magnesia and take a teaspoonful of powder or four tablets in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

he'll sell me bogus shares in meerscham mines or other anares. For nearly every man I see has something he would sell to me. But now and then there comes a man built on a grand and noble plan, who hasn't any thing for sale, who doesn't crave my hard-won kale. He has no hope to make hens lay, no new machine for baling hay; he doesn't urge me to invest in oil wells headed galleys west; he has no liquid to restore the hair I lost in days of yore; he doesn't try to sell a tome like Gibbon's 'Decline and Fall of the Roman Empire'; he has no salve that never fails when used to cure ingrowing nails; he doesn't come to offer me a sovereign cure for housemaid's knee. "I just dropped in," he smiles, "to say how much I like your pies. They are the best I ever ate, they are all wool and stove weight." Now blessings rest upon the gent who comes on such an errand bent, to speak a kindly word of praise, and not to sell George Bernard's plays, brass ornaments for milch cows' horns, a new device for curing corns.

Poor Golfer—"Well, how do you like my game?" Caddy—"I suppose it's all right, but I still prefer golf."

"I made some very valuable contracts today."

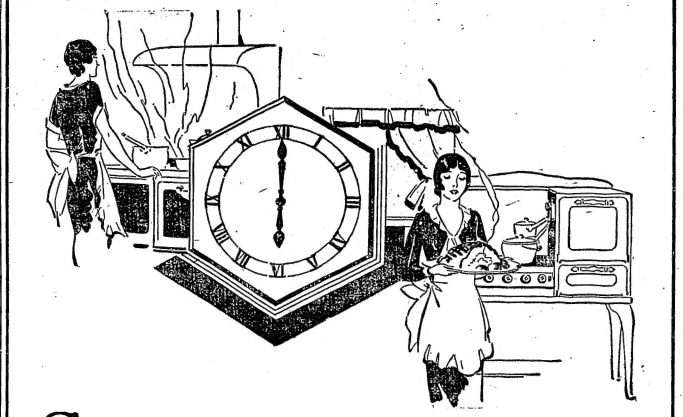

"I didn't make any sales, either."

For Cuts, Burns
and Scalds!

There is no danger of infection if you bathe cuts and burns with Absorbine, Jr., the famous liniment and antiseptic. It is good for treating bites, abscesses, sores, carbuncles, ulcers, feline and run-around.

Absorbine, Jr., takes out the pain, arrests inflammation, cleanses the sore or wound, and promotes rapid, healthy healing. It is not greasy and does not stain the skin or clothes. Always keep a bottle of Absorbine, Jr., handy in your medicine cabinet. \$1.25—at your druggists. Booklet sent free.

Absorbine Jr.
THE ANTI-SEPTIC LINIMENT
Eases sprains, strains and bruises

SIX O'CLOCK

in the homes of two women . . .

Mrs. Hodge's kitchen is in chaos. She's had so much to do—and the stove—goodness there are to be guests for dinner—she just knows it won't be ready in time. (And it probably won't).

Mrs. Drew is entertaining tonight too. She's just home from an afternoon of bridge. In a moment or two she'll take her dinner out of the Electric Range. It's perfectly cooked—ready to serve. And she is cool, fresh and unhurried.

The Electric Range you see, practically takes care of itself. The turn of a dial adjusts the Heat Regulator and Electric Timer—meals are cooked at precisely the right heat, precisely as long as is necessary,—and there's plenty of time for other things.

And you will find the cost of operating an Electric Stove is extremely low.

"SALADA" TEA

'Fresh from the gardens'

HILLSIDE U.F.A.

The regular monthly meeting was held in the school house on March 12th, with a fair attendance of members and visitors.

It was decided that the debate with the Lone Ridge local be held on April 16th.

The secretary reported that Mr. E. A. Corbett, of the Dept. of Extension, would give an address in the school house on March 26th, on "Education by Radio," also that there would be a moving picture entertainment the same evening.

Considerable time was spent discussing matters in connection with the Provincial Political Convention to be held in Wetaskiwin on Wednesday, March 19th. Two resolutions were drafted for presentation at the convention. It was decided to send three delegates, and Messrs. M. Dearing, C. Dowdell and H. G. Young were elected.

A committee was appointed to arrange for a speaker to give an address on the new Municipal Hospital Act in the school house at some future date, the local felt that as we will have to vote on this question in the near future, we should all have a clear understanding of the matter. It was decided to put on a membership drive, the local being divided into two teams for that purpose. A card party was arranged for

OLD DOCTOR'S IDEA IS BIG HELP TO ELDERLY PEOPLE

In 1885, Dr. Caldwell made a discovery for which elderly people the world over praise him today!

Years of practice convinced him that many people were endangering their health by a careless choice of laxatives. So he began a search for a harmless prescription which would be thoroughly effective, yet would neither gripe nor form any habit. At last he found it.

Over and over he wrote it, when he found people bilious, headachy, out of sorts, weak or feverish; with coated tongue, bad breath, no appetite or energy. It relieved the most obstinate cases, and yet was gentle with women, children and elderly people.

Today, this same famous, effective prescription, known as Dr. Caldwell's Syrup Pepsin, is the world's most popular laxative. It may be obtained from any druggist.

Wednesday, April 2nd. Come and play "500".

The scheduled debate between the U.F.A. and U.F.W.A. took place on Friday, March 14th, and was a great success. After listening to the many brilliant arguments of both sides, the audience decided that the ladies were the better men.

HILLSIDE U.F.W.A.

The regular monthly meeting of the U.F.W.A. was held at the home of Mrs. Leslie Swartz. The roll call was responded to with "My Favorite Way of Cooking Potatoes." This brought forth many nice and tasty ways of cooking the humble tuber.

Mrs. Harvey spoke on "Current Events," her main topic was the unrest in India caused by Gandhi and his followers. The resolutions that were to be brought up at the convention in Wetaskiwin were thoroughly discussed. Following this, Mrs. Dowdell was elected delegate to represent the local at Wetaskiwin.

Mrs. Martin gave her "First Impressions of Canada," in a pleasing style. The debate "Resolved that home work in Grades 1 to 7 should be abolished," was well threshed out by eight of the members. At the close of the meeting, a dainty lunch was served by the hostess, assisted by Mrs. Harvey.

The April meeting will be held at the home of Mrs. Hoskins, the roll call is to be "My Ideal House." Visitors are always welcome to these meetings.

WEISENFORD W.I.

Seven members and two visitors attended the regular monthly meeting of the Weisenford W.I., which was held at Mrs. Ed. Nell's.

The meeting was opened by singing "O Canada," and reciting the creed, and the roll call was answered by Irish jokes.

The minutes of the previous meeting were read and approved, and an application was made for holding a Baby Clinic in the district rather than going to Millet.

After the regular business discussion, a comic story was read by Mrs. Scott and a short sketch read by Mrs. Pulcher on how to drive a car. The meeting adjourned and lunch was served by the hostess, who was assisted by Mrs. R. Mond's.

"The next meeting of the Ladies' Aid is at the home of Mrs. Chas. Brinker on Thursday, April 3rd. At the last meeting, at Mrs. C. A. Kent's, it was decided to hold a sale of home cooking and afternoon tea in the Community hall on Saturday, March 22nd.

"Everybody welcome to the card party at Mrs. R. P. Roop's on Friday evening, March 28th. Admission 25c. Excellent prizes. Supper will be served.

THE MILLET PAGE

THIS PAGE DEVOTED TO THE INTERESTS OF MILLET AND DISTRICT

Telephone to, or leave all items for this page, as well as advertisements, & all orders for commercial printing, with L.P. WRIGHT, at MITCHELL'S OFFICE

MILLET LOCAL NEWS

Mr. A. P. Mitchell has six auction sales to be held this month in the district.

The roads leading to the village are now all open for car traffic and the village is booming.

Practice for the Olde Tyme Concert will be at the home of Mr. and Mrs. C. A. Kent on Thursday.

Robt. Elder has taken out a drayman's license in the village and is now ready for any work in his line.

We are pleased to see little Loraine Higginson and Millie Easterbrook around again, after their recent illness.

Burglars made their third visit to the U.F.A. store on Sunday night, but got a small haul, as very little goods were missed.

The St. Patrick's dance in Wetaskiwin was attended by a large number of Milletites, but we hear they had to charter the C.P.R. to get home.

There will be a short service on Thursdays during Lent at 4:30 p.m. in St. John's Anglican Church, when it is hoped as many as possible will attend this service.

The next meeting of the W.I. has been called off, as the bazaar is so soon. All are asked to please come to the quilting on Wednesday, April 2nd, in the morning. Bring a little lunch, and stay to the business meeting in the afternoon.

MARCH MEETING

WOMEN'S INSTITUTE

The March meeting of the W.I. was held at the home of Mr. and Mrs. J. W. West, with a large attendance and several visitors present. The meeting opened with all singing "The Maple Leaf For Ever." The roll call was "Our Favorite Bible Verse."

The date was set for the bazaar on Saturday, April 12th, at which beautiful articles of handwork, etc., will be displayed for sale, also home cooking. Afternoon tea will be served.

All are welcome to the Sewing Demonstration on March 25th, 26th and 27th, at Mrs. H. Phillips. Each person to bring her own pattern, materials to make up, etc.

A thoughtful, inspiring paper on "The Value of Religious Training for Young Children in the Home," was given by Mrs. T. H. Howes. The Sunday school and Church cannot quite make up for the lack of religious training in the home.

Mr. Moore gave a very interesting lecture on the Boy Scout movement. He has organized a large group in this neighborhood. When Mr. Moore gets done with our boys there'll be no flags flying the distress signal "Pilot Wanted" around this burg.

A pleasing duet was rendered by Mrs. H. A. Lee and Mrs. V. C. Rowlee. "When Irish Eyes Are Smiling," Community singing, "Jingle Bells," and other songs, was enjoyed by all.

A dainty lunch was served by the hostess, assisted by Mrs. F. Facey and Mrs. J. Dinney.

WINNERS IN BONSPIEL

The following are the winners in the bonspiel held in Millet recently: Grand Challenge—J. Barth's rink, prizes, four kettles, donated by Whyte & Orr Limited; 2nd, H. Pogue, prizes, four shirts; 3rd, Northey, prizes, 12 lbs. butter, donated by Burns & Co.; 4th, Macdonald, prizes, four flash lights.

Critters—J. Watson, prizes, fountain pens; 2nd, J. Barth, 3rd, H. Pogue, 4th, J. Benham, prizes, miscellaneous. Consolation—1st, J. Carney; 2nd, Hamilton; 3rd, Mrs. Watson, prize, 20 lbs. lard donated by Scott; 4th, H. Olsen, rolled oats and barber work. The hard luck prize was won by Ed. Pogue.

The Grand Aggregate was won by J. Barth's rink, the prize being cut glass sets.

Cold On Chest Coughed and Coughed Day and Night

Mrs. E. B. Shelton, Leader, Bank, writes: "I had a very severe cold on my chest and would cough and cough day and night, until I was nearly beside myself. I took all kinds of medicine, but nothing seemed to reach it. My druggist told me to take

**Dr. Wood's
Norway
Pine
Syrup**

and see if that wouldn't help me, so I took some a bottle, and from the first dose I could feel great relief, and by the time I had finished it my cough had completely disappeared, so now I always keep a bottle of 'Dr. Wood's' on hand."

Price, 35 cents a bottle; large family size, 60 cents; all druggists or dealers. Put up only by The J. Milburn Co., Ltd., Toronto, Ont.

Here and There

(194)

Prior to leaving on S.S. Metagana with his niece, Miss Helen MacKenzie, who is to be married in London next month, His Honor R. Randolph Bruce, Lieutenant-Governor of British Columbia, attended the official opening of the New Brunswick provincial legislature. In his trip by Canadian Pacific across the Dominion, Mr. Bruce called on every Lieutenant-Governor in Canada.

Captain A. J. Hoskin, R.N., skipper of Canadian Pacific liner Empress of Russia, was recently winner for the second time in succession of the E. W. Beatty shield for safety and efficiency. The shield was donated in 1928 by the chairman and president of the railway for competition among company ships of the Pacific fleet.

First week in March witnessed the addition of Alberta and Saskatchewan to the Canadian Pacific Railway's broadcasting chain which now covers Montreal, Toronto, Winnipeg, Fleming, for Saskatchewan and Calgary for Alberta. Slogan of the broadcast is "Cheerful and Good," and sea chanteys and songs from hallid operas together with high class orchestral pieces are put on the air every Friday night between 10 and 11 Eastern time.

In Ottawa electricity for domestic use is cheaper than anywhere else on the continent, if not in the world, according to authorities on the subject. It is sold at a rate that averages less than one cent per kilowatt-hour which means that the average bill for electric light incurred by citizens of the Canadian Capital is about \$1 per month.

At the World's Poultry Congress to be held at the Crystal Palace, London, England, next July, Canada will be a conspicuous participant. The Canadian exhibit of live birds will total about 1,000. The last World's Congress was held in Ottawa in 1927.

One of the largest real estate transactions of modern times will be put through at the present session of the Canadian Federal Parliament, when legislation will be submitted to enable the Government to hand over millions of acres of land, a substantial amount of water power, vast forest, wealth and other natural resources to the provinces of Manitoba, Alberta and British Columbia.

The music, songs and dances of Latin, Celtic, Scandinavian, Slav, Teuton and British will all be represented for Canadians this month when on March 12-22, the Third Great West Canadian Folk Dance, Folk Song and Handicrafts Festival will be held under the auspices of the Canadian Pacific Railway at the Palliser Hotel in Calgary.

Unusually heavy pre-Lenten weddings were indicated this month from the Windsor street station, Montreal, when 25 blushing honeymooners that city for Ottawa, Quebec and New York on one morning. Station officials say that this is very heavy for the time of year and comes close to the number leaving the station on mornings of Cupid's special month of June.

WM. AUCHTERLONIE, Owner.

W. L. GRAY, Clerk.

HILLSIDE

Miss Langer and the Misses Foster of Millet, were the guests of Mr. and Mrs. E. R. Hoskins over the week-end. The debate, concert and hat social held on Friday evening last by the U.F.A. and U.F.W.A., was enjoyed immensely by a moderate crowd. The debate, resolved, "That sex equality is a deterrent to Social Progress," evoked much merriment. The affirmative was upheld by Messdames Dowdell, Howes and Harvey. The negative by Messrs. Dowdell, Howes and Hoskins. By a standing vote of the audience the decision was given to the affirmative. A short sketch "Getting Acquainted" put on by Mrs. L. Swartz, Miss Lily Leader and Ivan Swartz, received a full measure of applause. Mrs. J. O. Harvey rendered a solo in her usual charming manner. Owing to an unavoidable occurrence several artists from Millet who were to assist in the program, could not come. The sale of hats, etc., realized \$27.00.

The community was shocked to hear of the sudden death of Mrs. Mizare in the Wetaskiwin hospital on Friday evening last. She leaves to mourn her loss a husband and infant daughter. The entire sympathy of the district is extended to them. Burial took place at Round Hill on Sunday.

A debating team from the U. F. A. and U.F.W.A. will clash with Verdon U.F.A. on "The Power Question," on Friday evening, the 21st, at the Verdon schoolhouse.

Mr. Corbett of the University, will speak on "Radio and Radio Education," on Wednesday evening, the 26th. There will also be a movie entertainment.

BUYERS THROG
SALE OF HORSES

Lacombe, March 15.—Many Eastern buyers were present in the large crowd of buyers that attended the sixth annual horse sale held in Lacombe on Wednesday and Thursday. Under good weather conditions, the sale was most successful and brought unusually high prices.

Over 250 horses passed through the ring, and brought an average of \$78.76. A. Weimer of the Weimer Sales Stables, Edmonton, paid a top price of \$450.00 for a team contributed by H. L. Sweet of Morning side. Other teams sold for \$350.00 and \$322.50.

The majority of the horses were bought by Eastern buyers, some of the largest purchasers being A. Picoy and P. Bodoff, of Montreal, who bought some 97 head, among which were three registered Percheron mares, for which they paid \$230.00, \$167.50 and \$150.00. A. Stewart, of Toronto; Burton and Green, Montreal; P. Berube, Peace River, and A. Weimer purchased car load lots.

REQUEST COMPANIES
POST BONDS

Edmonton, March 15.—With the intensification of fly-by-night oil promotion schemes, Premier J. E. Brownlee in the Legislature Friday, got the house to approve of second reading to amendments to the Oil and Gas Wells Act, which provides that when the province takes over its natural resources, those proposing to drill wells must post a bond, either with or without sureties of not more than \$10,000 for the drilling of one well and not more than \$50,000 for the drilling of more than one well.

It is hoped to make certain that if drilling is promised it will be proceeded with, and if proceeded with, should be finished.

Violation of any clause in the Act by a corporation is to be punished by a fine of not more than \$1000 for a single offence, and not more than \$100 a day for a continued offence.

Where individuals contravene the Act, the maximum fine for a single offence is \$100 and for a continuing offence \$20 a day.

Town Topics

The St. Patrick's dance given under the auspices of the B.P.O.E. No. 91 in the Elks' hall on Monday evening, was a big success. A large crowd was in attendance, and a good time was reported. In addition to the large number of Wetaskiwin residents who attended, there were visitors from Edmonton, Leduc, Millet, Camrose, Ponoka and Lacombe. The hall was very artistically decorated for the occasion, and the music was supplied by Harvey's orchestra.

The Girls' W.A. of Immanuel Church entertained their mothers at the Vicariate, Monday evening, March 17th. Miss Frances Roulston the president, gave a splendid report of the Diocesan annual meeting for the Girls' Branches held in Edmonton, Feb. 27th. Musical numbers and competitions appropriate to St. Patrick's Day were much enjoyed. Mrs. Roulston and Miss Rhoda Cook were the prizewinners. Rev. P. C. Wade gave a short informal address. Refreshments were served and the evening brought to a close with prayers and singing "God Save the King."

The Wetaskiwin (L.O.O.M.) Players had their largest time yet at Lacombe on Friday last, when they presented "Turn to the Right" under the auspices of Lacombe Moose Lodge. Frequently the thunderous applause actually "stopped the show," to use a theatrical term. The music supplied by a special orchestra was a most pleasing surprise to the visiting thespians, and the reception and entertainment of the Wetaskiwin contingent after the show will be long remembered as one of "the nights of their lives." The players were urgently requested to play a return engagement, and will probably do so.

The regular meeting of the Women's Institute will be held on Thursday, March 27th, in the W.I. rooms on Pearce Street West, at 3 p.m. Mrs. Rodell will give a report of the Institute convention at Drumheller. Mrs. J. S. Thompson, convenor of immigration, will have charge of the program. Two girls from Grade 9a and two from Grade 9b will give a debate on immigration. Members are requested to attend, as the final arrangements for the chicken dinner to be held on March 29th will be completed. A bedspread, to be given away at the dinner, will be on exhibition at the Star Store. A meeting will be held in the W.I. rooms on the 24th, to organize a business girls' club. Mrs. McGregor Smith of Edmonton, Supervisor of Girls' Clubs for Alberta, will be present.

MILLIONS CHINESE
STARVED OR FROZEN

San Francisco, March 13.—The semi-annual report of missionaries in the interior of China to Father James G. Keller, M.M., Maryknoll superior at Los Altos, received Wednesday, said that hundreds of thousands of Chinese are dead of hunger and cold in the province of Shensi.

"The worst famine section is in the Wei river valley in Shensi," the report said. "A year ago the population was six million. Two millions died during 1929. Two million more are doomed by June. Transportation facilities are gone. Animals have been eaten for food and vehicles broken up for fuel. When farmers stop to feed their animals they have to stand guard over the food and fight off the mob."

perior at the Junior Seminary of the order of Los Altos, received Wednesday, said that hundreds of thousands of Chinese are dead of hunger and cold in the province of Shensi.

"The worst famine section is in the Wei river valley in Shensi," the report said. "A year ago the population was six million. Two millions died during 1929. Two million more are doomed by June. Transportation facilities are gone. Animals have been eaten for food and vehicles broken up for fuel. When farmers stop to feed their animals they have to stand guard over the food and fight off the mob."

"Children scramble under horses' feet and fight for morsels that fall from the animals' mouths. The people are crowded into small quarters and typhus has broken out. Daily there are reports of a starving person frozen to death on the streets."

"There are thousands of cases where the starving have ended their lives to put an end to their suffering. Children are abandoned by their parents or are found crying by the bodies of their mothers. Many children have been killed by their parents to end their suffering."
